

Taormina Antenna Supports – As Approved 5/21/12

Taormina Antenna Supports – As Approved 5/21/12

From Pages 5-6 of Staff Recommendation Summary, SUP 2011-010

- a. Towers 1 and 2 (45' lattice): These structures exist as of the date of this SUP, are permitted to remain at or below 45', and shall otherwise remain unaltered from their current state, including height (unless reduced), width, shape, mass, and surface color/treatment.
- b. Tower 3 (45' lattice): This structure exists as an 85' antenna support structure as of the date of this SUP. It shall be reduced to a total height at or below 45', shall remain a lattice structure, and shall remain at its current width, shape, mass, and surface color/treatment.
- c. Towers 4 (45' lattice): This structure exists as a 110' antenna support structure as of the date of this SUP. It shall be reduced to a total height at or below 45', shall remain a lattice structure, and shall remain at its current width, shape, mass, and surface color/treatment.
- d. Tower 5 (120' monopole): This structure shall be permitted as proposed in SUP Application No. 2011-010, Building Permit Application No. 8354, and the PE stamped engineered plans submitted to the Community Development Department, and shall remain at or below 120' in height.
- e. Towers 6 and 7 (140' lattice): These structures exist as of the date of this SUP, are permitted to remain at or below 140' in height, and shall otherwise remain unaltered from their current state, including height (unless reduced), width, shape, mass, and surface color/treatment.
- f. Tower 8 (175' monopole): This structure shall remain similar in width, shape, and mass as proposed in SUP Application No. 2011-010 and Building Permit Application No. 8354; however, it shall be limited to a total height at or below 175'. Submitted engineered plans for the previously proposed 195' support structure shall be amended as necessary for reduced height and submitted to the Community Development Department for approval.
